

the professional
labeling software

NiceLabel

New in NiceLabel 5.2

New, upgraded version of NiceLabel is bringing more than 500 improvements in all modules that will surely make the difference in your business processes.

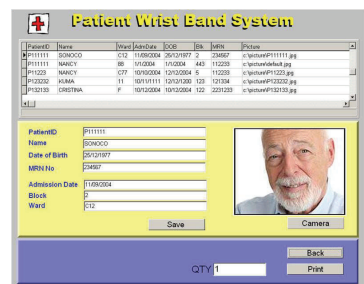

New in NiceLabel Standard Series

More design capabilities:

- **Curved text** — you can now place your text in the label in a curved positions. Ideal for bottle stickers or other more demanding labels.

Printing optimizations:

- **Reprint improvements**—more information available on the Reprint dialog. Ideal situation if you want to reprint your labels on other printers.
- **TWAIN Support** (Images for Webcams and Scanners) - now you can acquire image and place it into the label from any TWAIN supporting device. An excellent benefit for any kind of personal ID system.

TWAIN graphic support

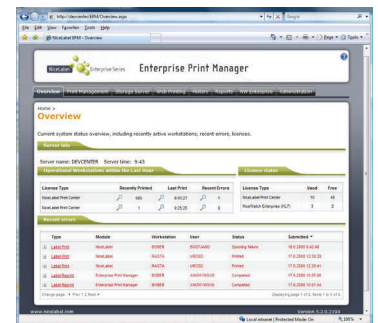

RFID enhancements:

- **Support for EAS (Electronic Article Surveillance)**- even the ordinary RFID tag can now be used as an anti theft device
- **Support for TDS (EPC Global Data Standard)** - all the latest EPC Global encoding standards are available in the label designer.

New in NiceLabel Enterprise Series

General improvements:

- **Enterprise Print Manager**—significantly redesigned and improved user interface now offers a unique user experience.
- **Executive reporting**—maximize the productivity by optimizing use of your human and infrastructure resources, improving production workflow and supply chain management.

EPM—improved user interface

NiceLabel Print Center, more powerful than ever:

- **Web printing**—now available also for non-Windows platforms (Macintosh, Linux) and can be utilized also by Mozilla Firefox and Opera browser users.

NiceWatch Enterprise, new integration options:

- **Supervised printing**—be in control over the printing process and provide feedback to the data-providing application
- **Manual trigger execution**—a great testing capability allows you to execute triggers with a single mouse click.
